

ROSTISLAV GRISHIN

Senior Systems Integrator | AV & Automation Specialist | Network & Security Engineer

Edmonton, AB | 780-599-0885 | grishin.rost@gmail.com | rostman.net

PROFESSIONAL SUMMARY

Senior Integration Specialist with 13+ years of expertise bridging the gap between physical hardware and intelligent software. I specialize in High-End AV Automation, Building Management Systems (BMS), and Enterprise Networking. My core strength is engineering the logic behind the system—from Showroom-Quality Rack Fabrication to complex Network Segmentation (VLANs) for stable AV-over-IP ecosystems. Expert in troubleshooting "unsolvable" legacy systems and delivering white-glove service for high-net-worth clients.

TECHNICAL SKILLS & LANGUAGES

Network Engineering: Fortinet, Cisco Meraki, Ubiquiti (UDM/Edge), VLANs, VPN Tunneling.	Security & Access: AXIS (A1710-B, Camera Station), DSC Neo, Brivo Cloud Access, CDVI.
Automation Logic: Control4 (Advanced), Philips Dynalite (DyNet/DALI), Python Scripting.	IT Tools: Linux/VPS (OVHcloud), OvrC, Domotz, Docker.
AV Infrastructure: Rack Engineering (Thermal/Cable Mgmt), AV-over-IP (NVX/MoIP), Multi-Zone Audio.	Languages: English (Professional), Russian (Native), Hebrew (Fluent).

PROFESSIONAL EXPERIENCE

Lead Systems Technician & Integration Specialist

Unified Automation Inc.

Oct 2025 – Present | Edmonton, AB

- High-Level Integration:** Configure and program Enterprise Access Control systems (AXIS A1710-B, Camera Station) and CDVI. Specialized in complex server-side configuration and logical programming.
- IT & Cloud Infrastructure:** Manage VPS on OVHcloud for remote system diagnostics and secure VPN tunneling. Responsible for the health of 50+ endpoints (IoT controllers, IP cameras, network sensors).
- Workflow Automation (Dev):** Developed custom automated digital workflows (using Python/AI) that reduced technical incident response time by ~25%.

Security Systems Specialist & Integration Lead

Signature Technology Integrations

Mar 2025 – Oct 2025 | Edmonton, AB

- Legacy System Takeovers (Reverse Engineering):** Specialized in diagnosing and restructuring undocumented legacy infrastructure. Successfully diagnosed and mapped "blind" systems where no schematics existed.
- Hybrid Cloud Ecosystems:** Acted as Technical Lead for 20+ commercial projects, commissioning Brivo (Cloud Access Control) integrated with DSC Neo (Intrusion) panels.
- Code Compliance:** Ensured all installations strictly adhered to Alberta electrical codes and safety standards.

Senior Automation Integrator & Team Lead

Jan 2022 – Oct 2024 | Herzliya, Israel

Top Audio

- **Showroom-Quality Rack Engineering:** Engineered and fabricated complex 42U AV rack systems. Focused on meticulous cable management, thermal optimization, and strict adherence to schematics.
- **Advanced Logic Programming:** Lead Programmer for luxury ecosystems. Specialized in Philips Dynalite (DyNet/DALI protocols) and Control4 automation logic (HVAC, Lighting, AV).
- **Technical Mentorship:** Mentored junior installers on termination standards and rack dressing, reducing post-installation support tickets by 30%.
- **AV-over-IP Architecture:** Deployed high-bandwidth video distribution systems backed by enterprise-grade networks (Araknis/Cisco) ensuring zero latency.

Network Implementation Engineer

Nov 2019 – Jan 2022 | Jerusalem, Israel

O-me

- **Network Architecture:** Designed and deployed 150+ robust network infrastructures for SMB clients using Cisco Meraki, Fortinet, and Ubiquiti.
- **Scripting & Automation:** Implemented Python configuration scripts to automate router provisioning, reducing deployment time by 40% and eliminating manual errors.
- **Infrastructure Build:** Oversaw end-to-end installation of structured cabling (Cat6/Fiber) and server rack build-outs.

Smart Home Systems Engineer

Dec 2016 – Nov 2019 | Netanya, Israel

KAHANE

- **Philips Dynalite Engineering:** Specialized in commissioning complex lighting control systems using DALI and Relay protocols. Integrated lighting panels into broader BMS (Building Management Systems).
- **Full-Stack Automation:** Deployed and programmed unified Control4 ecosystems in 70+ properties, integrating AV, HVAC, Shades, and Alarm systems.
- **Network Traffic Engineering:** Configured VLANs and subnets to physically separate AV traffic from guest data, ensuring stability for media streaming.

IT Systems Engineer (Freelance)

Mar 2010 – May 2016 | Kazakhstan

Rostman

- **IT Infrastructure Consulting:** Designed, deployed, and administered robust Windows Server and Linux environments for SMB clients.
- **System Administration:** Managed virtualization (Hyper-V), Active Directory, and implemented Shell scripting for automated system maintenance.

EDUCATION, CERTIFICATIONS & TRAINING

Master's Degree (M.Eng.) in Radio-engineering & Electronics

Almaty University of Power Engineering & Telecommunications

2010 – 2012

Control4: Advanced Programmer & Composer Pro Expert (Hands-on Specialization).

Philips Dynalite: Commercial Lighting Control & BMS Integration Course.

Network Engineering: Advanced configuration for Fortinet, Aruba, Cisco Meraki.

CompTIA Network+: (Exam Preparation In Progress).
