

ROSTISLAV GRISHIN

Edmonton, AB, Canada | 780-599-0885 | grishin.rost@gmail.com | rostman.net

PROFESSIONAL SUMMARY

Systems Integration Specialist with 13+ years of international experience (Canada, Israel, Kazakhstan). Holds a **Master of Engineering and Technologies** degree. Expert in bridging the gap between physical infrastructure and network logic. Proven track record of optimizing workflows, implementing remote monitoring to **minimize truck rolls**, and delivering high-availability systems for security, AV, and smart buildings.

TECHNICAL SKILLS

Automation & Security Control4, Philips Dynalite, Brivo, AXIS, Crestron	Networking Fortinet (FortiGate), Cisco Meraki, Aruba, VLANs, VPNs
Systems & Virtualization Linux, Windows Server, Docker (Lab Testing)	Field Tools OvrC, Domotz, Wi-Fi Heatmapping (Ekahau), Documentation

CORE STRENGTHS

- **On-site Commissioning:** Full lifecycle from rack architecture to programming and client handover.
- **Network Hardening:** Implementing VLAN segmentation and secure remote access for distributed sites.
- **Operational Excellence:** Standardizing installation protocols to eliminate human error and rework.
- **Proactive Support:** Utilizing RMM tools for remote troubleshooting, reducing site visits by ~30%.
- **Mentoring:** Training junior technicians in wiring standards, networking, and field safety.

PROFESSIONAL EXPERIENCE

Unified Automation Inc. – Edmonton, Canada Systems Integration & Security Specialist (Contract) • Executing field deployments of enterprise-grade access control, surveillance, and network systems. • Improved system reliability by implementing VPN-based Remote Monitoring and Management (RMM). • Standardizing documentation and labeling protocols for repeatable, high-quality installation results.	Oct 2025 – Present
Signature Technology Integrations – Edmonton, Canada Technical Operations Specialist (Contract) • Upgraded and stabilized legacy security and network systems for high-value commercial clients. • Coordinated on-site tasks and provided field leadership for junior installer teams. • Identified critical hardware bottlenecks and implemented streamlined process improvements.	Mar 2025 – Oct 2025

TopAudio – Herzliya, Israel

Jan 2022 – Oct 2024

Infrastructure & Automation Engineer

- Designed and deployed high-end smart home ecosystems (Control4, Dynalite) from the ground up.
- Managed rack architecture, cabling, network optimization, and final system programming.
- Lowered emergency on-site visits by ~30% via proactive remote health monitoring.

O-me – Jerusalem, Israel

Nov 2019 – Jan 2022

Network Deployment Engineer

- Co-led the rollout of secure network stacks for **100+ retail branches**.
- Performed physical installation and remote configuration of FortiGate and Meraki appliances.
- Ensured network segmentation and consistent wireless coverage across diverse site layouts.

Pharmacom – Almaty, Kazakhstan

2013 – 2016

System Administrator

- Managed IT infrastructure and server uptime for a network of **200+ pharmacy locations**.
- Administered site-to-site VPN tunnels and critical internal accounting servers.
- **Mass Migration:** Replaced hardware in 25 branches within 13 days with zero operational downtime.

EAT – Almaty, Kazakhstan

2010 – 2013

IT Support / Help Desk

- Maintained office IT infrastructure and provided hardware/software support for local sites.
- Resolved critical system incidents and performed routine server maintenance.

EDUCATION

Master of Engineering and Technologies

2010 – 2012

Radio Engineering, Electronics and Telecommunications

Almaty, Kazakhstan

PERSONAL PROJECTS

- **Cloud Infrastructure Lab (OVHcloud):** Managing a Linux VPS for a private CRM portal and secure VPN.
- **Security Hardening:** Service obfuscation via non-standard ports and custom firewall rules.
- **Automation:** Python scripts for automated system health reports and network diagnostics.
