

ROSTISLAV GRISHIN

Network & Systems Integration Specialist

Edmonton, AB | [780-599-0885](tel:780-599-0885) | grishin.rost@gmail.com | rostman.net

PROFESSIONAL SUMMARY

IT and Systems Integration Specialist with 13+ years of hands-on experience bridging physical infrastructure and network deployment. Proven track record of configuring secure networks (**Cisco Meraki, Aruba**) across 100+ multi-site locations, designing high-density 42U racks, and optimizing RMM workflows to reduce operational costs. Strong background in low-voltage systems and OT integration. Currently pursuing the **AWS Solutions Architect Associate (SAA-C03)** certification to transition into cloud-integrated infrastructure.

TECHNICAL SKILLS

Networking & Security: Cisco Meraki, Aruba, VLAN Segmentation, L2/L3 Troubleshooting, VPN (WireGuard/OpenVPN).

Infrastructure & Hardware: 42U Rack Design, Low-Voltage Deployment, Access Control, Surveillance Systems.

OT & Integration: Modbus, BACnet, Control4, Philips Dynalite.

Systems & Tools: Linux (Ubuntu), RMM Deployment, Proactive Monitoring, Remote Support.

PROFESSIONAL EXPERIENCE

Systems Integration & Security Specialist

Oct 2025 – Present

Unified Automation Inc. — Edmonton, Canada

- Deploying enterprise access control and surveillance systems; standardized project documentation for 100% repeatable results.
- Led the end-to-end installation of low-voltage cabling and network hardware, ensuring strict adherence to industry standards.
- Implemented **VPN-based RMM**, significantly increasing system reliability and remote support capabilities for client sites.
- Acted as the primary technical liaison between clients, facility managers, and third-party contractors to ensure precise project execution.

Technical Operations Specialist

Mar 2025 – Oct 2025

Signature Technology Integrations — Edmonton, Canada

- Stabilized legacy security networks for commercial clients and successfully managed on-site deployment schedules.
- Designed, assembled, and managed **42U network racks**, integrating switching equipment with physical security systems.
- Identified hardware bottlenecks, optimizing system performance through targeted physical and network infrastructure upgrades.
- Trained and supervised junior installer teams on Layer 1/Level 2 troubleshooting and hardware deployment protocols.

Infrastructure & Network Security Engineer

Jan 2022 – Oct 2024

Top Audio — Herzliya, Israel

- Designed multi-layer VLANs for high-density environments; secured Cisco and Aruba network stacks in enterprise racks.

- Integrated complex OT protocols (Modbus, BACnet) to bridge physical building automation with IP networks.
- Automated proactive monitoring, reducing emergency site visits by **30%**.
- Managed vendor relations with ISPs and authored standardized technical documentation for enterprise-grade infrastructure.

Network Deployment Engineer

Nov 2019 – Jan 2022

O-me — Jerusalem, Israel

- Co-led secure network stack rollout for **100+ retail branches**; configured Cisco Meraki and enterprise routing appliances.

Systems Integration Engineer

Dec 2016 – Nov 2019

KAHANE — Netanya, Israel

- Engineered automation for **70+ high-end properties**; integrated Modbus/BACnet into unified platforms.

System Administrator

2013 – 2016

Pharmacom — Almaty, Kazakhstan

- Managed IT for **200+ locations**. Migrated 25 branches in 13 days with zero operational downtime.

IT Support Specialist

2010 – 2013

EAT — Almaty, Kazakhstan

- Maintained office IT infrastructure and resolved critical system incidents.

EDUCATION & PROJECTS

Master of Engineering: Radio Engineering & Telecommunications (AUPET).

Certifications in Progress: AWS Solutions Architect Associate (SAA-C03).

Key Projects: NeuroLang App development; Self-hosted VPS (OVHcloud) with WireGuard hardening.
